Applications

The Big Boy is a comfortable, flame-retardant folding chair that meets the relevant international requirements for indoor use, whilst its weather-resistant steel and plastic construction, mean this model is also well suited for use outdoors.

Features

The Big Boy features an extra-large frame for audience comfort, and heavy-duty connectors for stable and secure row seating. Thanks to its space-saving design, up to 4,368 chairs can be delivered on a single semi trailer. Big Boys work best on even surfaces.

Optional Extras

eps also offers delivery, set-up, and collection. In addition, tailor-made cushions, and custom waterproof seat numbers and block signs can be supplied. We can also provide CAD-based site plans to help you make the most of the available space while meeting safety regulations.

01 With the help of the integrated connection system, these light yet stable chairs can be assembled into rows with little effort and time | **02** This foldable seat is suitable for both indoors and outdoors and is ideal for large events | **03** With its pleasantly wide seat, the Big Boy offers event visitors a high level of seating comfort | **04** Big Boys are stackable and are transported in pallets of three, each containing 240 chairs
