

CONTAINER TOILETS

Sanitarräume

Container Toilets

Sturdy, portable restrooms with water-flush toilets

Material: structural framework: 3.00 mm (1/8 in) thick galvanized steel panels
separation walls: Dibond® panel
doors: galvanized steel panel, painted white
floor: ribbed aluminum

Dimensions (l x w x h): 6.00 x 2.44 x 2.60 m
(19 ft 8 in x 8 ft x 8 ft 6 in)

Transport: 2 toilet containers per truck
equivalent to 32 toilet cubicles

Applications

Our extremely sturdy Container Toilets are custom-designed by eps for large, multi-day events at venues with limited restroom facilities.

Features

Every WC Container features 16 lockable toilet stalls, each equipped with a toilet paper holder, a trash can, and a water-flush toilet. Other standard features include a centrally controlled interior lighting system and a sink module with five handwashing stations. WC Containers can easily be loaded and positioned with a forklift.

Optional Extras

Upon request, we can supply an additional sink module, or up to ten hand-washing stations per container, as well as mirrors and soap dispensers. If there is no existing water supply or sewage system at your event site, we offer portable solutions, such as holding tanks and waste disposal via pump truck. We also offer planning services, delivery, hook up, cleaning, and pick up.

01 A sanitary camp with toilet containers and separate urinal area is indispensable for festivals | **02** Different models are available, including gender-specific containers, as well as wheelchair-accessible versions | **03** The robust toilet container is very spacious and holds up to 16 individually lockable toilet cabins | **04** The interior varies from model to model and is already pre-installed in the containers
