	row depth: 0.80 m (32 in)
Transport:	approx. 650 grandstand seats per standard trailer

Applications

eps's extremely versatile Seated Grandstands are specially configured to create more seats with premium views. Thanks to their unique snap-together design, they can also be assembled without the aid of hammers or power tools, allowing for faster, easier, and quieter installation.

Features

eps Seated Grandstands are modular, allowing for flexible configuration. They also comply with relevant international regulations and are approved for outdoor as well as indoor use. Customers can choose between benches and individual seats.

Optional Extras

Upon request, we supply black padded seat cushions and seat numbers. We also offer delivery, installation, and breakdown, as well as CAD-based site plans to help you make the most of the available space while meeting safety regulations.

01 The integrated staircase system ensures safe and secure access to the grandstand seats | **02** Thanks to its flexible, modular design, our Seated Grandstand can be adapted to a wide variety of surfaces and space conditions | **03** Temporary grandstands such as this one also provide space for large numbers of spectators | **04** Whether you require the standard solution, or something specific dependent on needs and terrain – eps will assist you in selecting the right solution from the planning phase
