

TOILET TRAILERS

Toilet Trailers

High-quality mobile toilets for event sites

Material:	structural frame: 3 mm thick, galvanized sheet steel doors: white, galvanized steel base: PVC
Dimensions (l x w x h):	6.90 x 2.49 x 2.87 m (271 x 98 x 113 in)
Transport:	passenger vehicle with a standard ball hitch and minimum 1.6 t towing capacity

Applications

High-quality, durable Toilet Trailers are easy to transport and maneuver, making them ideally suited for every type of event – from private parties to busy street fairs up to large festivals.

Features

Toilet Trailers can be easily delivered by means of passenger cars or light trucks with a trailer hitch. The 2-axle trailers can be easily maneuvered into the smallest spaces. Toilet Trailers are robust and weather-resistant, and come equipped with adjustable electric heating, a hot-water heater, lighting, and durable PVC black high-gloss visibility protection in the urinal area. User-friendly accessories such as foldout stairs, stainless-steel basins, faucets, towels and soap dispensers are supplied as part of a standard delivery.

Both the toilets and urinals are flushed using water. Waste water can be discreetly and cleanly routed to a sewage system. A 230 volt 16 ampere electrical connection is required for lighting, hot water and heating.

Optional Extras

eps can provide a client-specific proposal including planning and regulatory approval (such as on-site water disposal) along with delivery, connection, intermediate and final cleaning, waste disposal (with a pumping truck), and collection.

01 The stable WC trolley is 6.90 metres long, 2.49 meters wide and 2.87 meters high | **02** The structural frame and white painted doors are made of galvanised sheet steel | **03** The entrances can be accessed via fold-out steps | **04** In addition to toilets and urinals flushed with water, each area is equipped with sturdy single-lever mixers and a hand basin made of high-quality stainless steel, as well as practical dispensers for soap and paper towels
