# Logis Event Grip

Pedestrian-friendly and versatile turf protection

<b>Material:</b>	Colored: polyethylene (PE) Black: recycled polyethylene (PE)
<b>Dimensions</b> (l x w x h):	Unit: 1.00 x 1.00 x 0.022 m (39 x 39 x 1 in)  Element: 0.248 x 0.248 x 0.022 m (10 x 10 x 1 in)
<b>Weight:</b>	7.50 kg/m <sup>2</sup> (1.54 lbs/ft <sup>2</sup> ) per element
<b>Color:</b>	Red, Green, Blue, White, Black Additional colors available on request
<b>Transport:</b>	50 units of 1 m <sup>2</sup> per pallet

## Applications

Logis Event Grip is a flexible turf protection system for all types of pedestrian access. The system protects pedestrians and event sites from deterioration of walkways and event areas caused by heavy footfall and adverse weather. The modular flooring is offered in a range of colors and can be installed in patterned configurations, even spelling out text or reproducing logos to add a unique impact to event sites.

## Features

A simple clipping system allows for a fast, simple install and provides an even surface, to ensure a safe and stable event floor for pedestrians. As the system is constructed of small flexible segments and is available in a range of colors, Logis Event Grip can be adapted to any configuration and tailored to suit bespoke requirements. Logis Event Grip performs

well on flat or mildly undulating ground. It is wheelchair accessible and capable of supporting light-weight vehicle movements.

## Optional Extras

- eps offers an optional range of underlays to protect the subsurface and adapt to ground conditions
- Transition products to seamlessly connect Logis Event Grip with other ground and turf protection systems
- Compatible with the full eps range of drivable flooring
- Cable Protectors are available to safeguard equipment and pedestrians
- eps offers CAD design to help expedite and optimize the planning process

**01** The modular flooring can be installed to create various patterned surfaces, including text or logos, to give event venues a unique touch | **02** The system provides pedestrians with safe pathways, even during high foot traffic and bad weather conditions, such as along sales booths | **03** Logis Event Grip is highly flexible and works well on flat surfaces as well as slightly uneven terrain | **04** The system is composed of small elements and is available in numerous colors
