

OmniDeck™ Panels

OmniDeck Panels

Heavy-duty, Pedestrian-friendly Cover System for Sensitive Surfaces

Material:	High-density polyethylene (HDPE) with UV resistance properties and polycarbonate cam locks
Dimensions (l x w x h):	1.83 m x 0.91 m x 0.038 m (6 ft x 3 ft x 1.5 in)
Weight:	Approx. 24.90 kg (55 lbs) per panel
Color:	Translucent, Anthracite Grey
Accessories:	Ramps (200 psi, depending on subsurface conditions) 600 psi, depending on subsurface conditions
Transport:	806 panels per U.K. lorry/EU truck 750 panels per U.S. standard 48 ft flatbed truck

Applications

The OmniDeck system is a versatile event flooring solution that can meet a wide range of needs. The durable plastic panels provide optimal protection for level, sensitive green areas, making them ideal for stadiums. In addition, the pedestrian-friendly surfaces of OmniDeck panels are well-suited for use in stage and spectator areas, or as heavy-duty foundations and access roads.

Features

The translucent OmniDeck system is very robust and flame-retardant. Made from high-density polyethylene, the thermoplastic material is UV resistant. The swivel locks of the panels are made of polycarbonate. The 3.80-centimeter-high (13.77 inches-high) floor protection panels are available in Translucent White and Anthracite Grey. Each panel covers 1.67 square

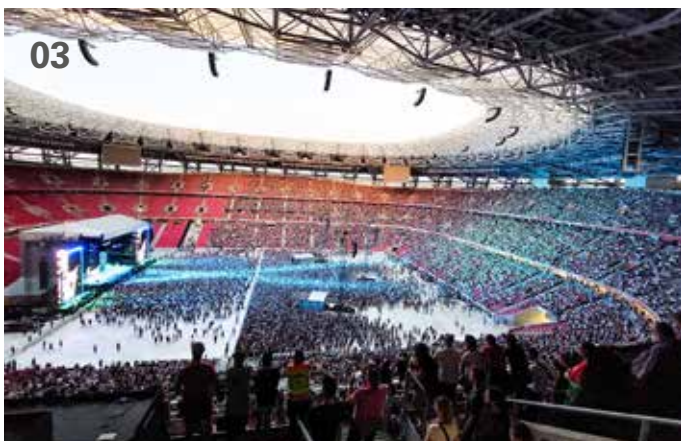

meters (17.97 square feet) and weighs 24.90 kilograms (54.89 pounds).

Optional Extras

We offer the tools necessary for locking and unlocking the panels, as well as flat ADA ramps for wheelchair-friendly access. These ramps can be attached to all sides of the panels and provide a gentle slope for forklifts and other equipment. We also provide additional protective underlays, such as geotextile, PE film, or EnkaMat, which are ideal depending on the nature of the ground. If needed, we can combine various turf protection systems for added protection.

01 The OmniDeck system creates resilient and safe surfaces for floors, such as sports turf | **02** The panels ensure good load distribution, allowing forklift trucks and other heavy vehicles to drive over them | **03** OmniDeck turf protection is suitable for large stages, grandstands, temporary tent floors, and load-bearing areas | **04** The panels can be laid in all directions and are gentle on the lawn, allowing light to penetrate the covered substrate
