

# Outdoor Banners and Flagpole Flags

# Outdoor Banners and Flagpole Flags

## Applications

Outdoor Banners and Flags are an extremely useful element at any event, and can be employed as way-finding signage and to help guide visitors at events and provide an added level of safety.

Banners mounted on mobile fences and tarps can serve as visibility protection, or can be combined with sponsor logos in order to provide additional promotional and advertising space.

## Features

eps's Outdoor Banners and Flags are flame retardant as per DIN 4102-B1 and well suited for both outdoor and indoor use. The textiles used are extremely stable, weather and UV resistant (2–3 years), and can be used in all outdoor conditions.

Our printed fence banners can be tailored to standard mobile fences of 3.41x1.76 m (134 x 69 in). The all-round loops permit easy and proper assembly.

Banners can be made of air permeable gauze or tarp material.

All Outdoor Banners and Flags feature high-quality seams and eyelets on the left side for professional fastening. Flagpoles with booms feature a hemstitch on the top edge for fastening. The standard dimension of our flags is 4.00 x 1.50 m (157x59 in). We also offer mobile fence flags in a 4.00 x 1.00 m (157 x 39 in) format. eps can provide masts and racks for both formats.

## Optional Extras

We stock common commercial signage – Emergency Exit, WC, First Aid, etc- but also provide custom banner or flag designs according to your individual requirements or in special formats. Upon request, we can deliver cable and rubber straps for fastening banners and flags.
