## Applications

We offer a wide range of Stackable Chairs, including Object and Shell Chairs, for conferences, banquets, galas, and other large-scale events.

## Features – Object Chair

This comfortable chair features an upholstered seat and backrest and can be assembled in rows using special chair clips. We also offer this model with a fold-away desktop and armrests.

## Features – Shell Chair

The Shell Chair features an integrated linking system. Simply hooking them together allows for quick and effortless formation of large seating rows. This chair model is also available upon request with a upholstered seat and in a B1-certified version, which is flame-retardant.

## Optional Extras

We provide tailormade cushions for the Shell Chair, waterproof seat numbers, and block and row signages. Upon request, we offer all services, including delivery, installation, and collection. We can also provide CAD-based site plans to help you make the most of available space whilst still meeting safety regulations.
