## Applications

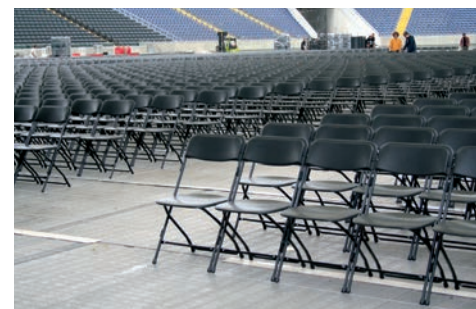

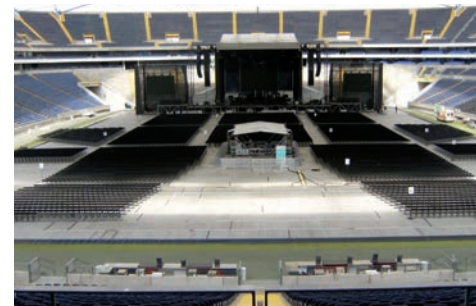

The Big Boy is a comfortable, flame-retardant folding chair that meets the relevant international requirements for indoor use. With its weather-resistant steel and plastic construction, this model is also well suited for use outdoors.

## Features

The Big Boy seating system features an extra-large frame for audience comfort and heavy-duty connectors for stable and secure row seating. Thanks to their space-saving design, up to 4,368 chairs can be delivered on a single semi trailer. Big Boys work best on even surfaces.

## Optional Extras

Upon request, we offer delivery and set up, as well as tailor-made cushions, and custom waterproof seat numbers and block signs. We can also provide CAD-based site plans to help you make the most of the available space while meeting safety regulations.

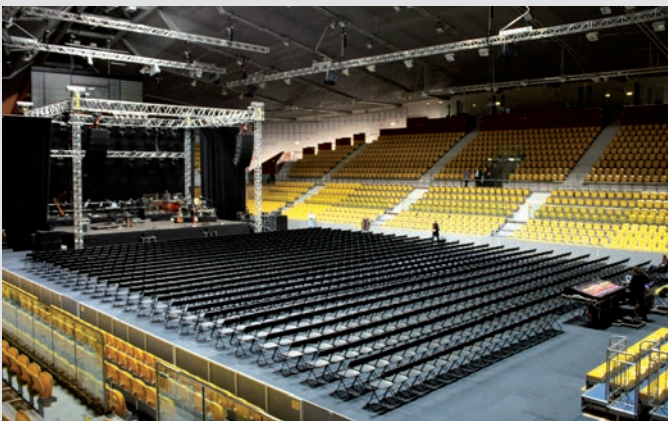

# Big Boy
