

Matrax

A durable, lightweight system for turf and ground protection all in one

Material	polyethylen (HDPE)
Dimensions (l x w x h)	loading size: 1.22 x 1.22 m (48 x 48 in) cover size: 1.12 x 1.12 m (44 x 44 in) packing size: 1.22 x 2.34 m (48 x 92 in) height: 0.038 m (1.5 in)
Weight	ca. 21.5 kg (47.5 lbs) per panel
Color	translucent and grey
Surface	slightly textured
Accessories	hand tool
Transport	25 mats (62 m ² /667.36 ft ²) per euro pallet approx. 992 m ² (10,677.80 ft ²) per standard trailer

Applications

Create temporary flooring, pedestrian walkways, or roadways for small construction vehicles with the Matrax system. Thermoplastic design makes them a lightweight but durable solution, ideal for use on natural or artificial turf.

Features

Each Matrax mat is equipped with a textured profile for traction, and an integrated interlocking system to hold the mats in place. Installation and removal is performed quickly and easily with just a small team and light tools. Manufactured out of 100% recyclable materials, Matrax mats are also an eco-friendly product.

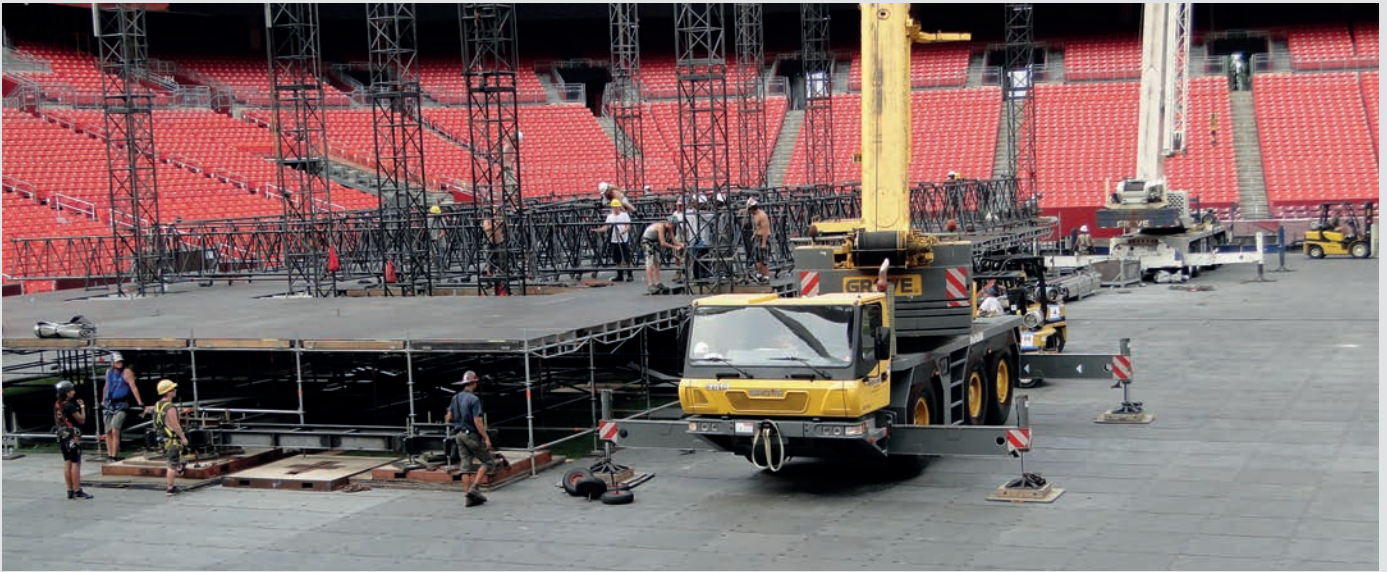

Optional Extras

Upon request, we offer delivery, installation, breakdown, and cleaning. In certain situations we recommend using Geotextile for extra protection of the subsurface.

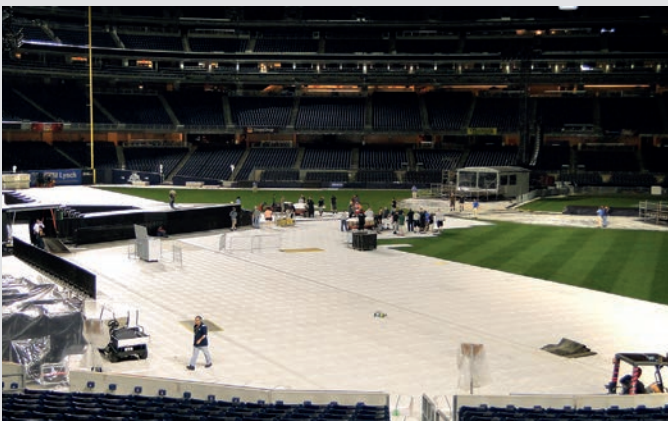

Matrax

On-site applications

Matrax as a construction platform and stage foundation

Simple installation and perfect protection

Matrax as transport road and storage area in stadiums

Protection of a construction site in grey

As turf protection for an event in white
