

# Supa-Trac

A professional turf protection system for medium loads

<b>Material</b>	polypropylen copolymer
<b>Dimensions</b> (l x w x h)	0.91 x 0.225 x 0.035 m per element (36 x 9 x 1.4 in) 2.745 x 1.145 x 0.035 m per unit (cover) (108 x 45 x 1.3 in) 2.80 x 1.195 x 1.17 m per palett (loading) (110 x 47 x 46 in) (2.50 x 1.20 x 0.12 m palett size) (98 x 47 x 4.7 in)
<b>Weigth</b>	2.18 kg per element (4.8 lbs) 32.70 kg per unit (72 lbs)
<b>Color</b>	white
<b>Accessories</b>	ramps
<b>Transport</b>	94.29 m <sup>2</sup> (1,015 ft) per special pallet, approx. 1,508.64 m <sup>2</sup> (16,239 ft) per standard trailer

## Applications

Supa-Trac is a temporary pitch covering system for protecting football fields, golf courses, and other sensitive surfaces.

## Features

Supa-Trac is slightly perforated, allowing light, air and water to the ground below. Depending on the underground it can be left down for up to five days without damaging the underlying turf and soil. Supa-Trac system comes with a patented locking clip system. To unlock the sections after use only a simple screwdriver is needed. Thus it is very easy to make cutouts for pillars, front of house or delay towers.

Due to the special connection between the elements, Supa-Trac fields remain flexible and can adapt to slightly uneven surfaces. One Supa-Trac unit corresponds to 15 elements, quick and easy to be layed by teams of two.

## Optional Extras

We offer delivery, installation, breakdown, and cleaning. Upon request, we can also put panels down to non standard sizes and supply special ramps colored black or yellow.

# Supa-Trac

## On-site applications

*Turf protection with Supa-Trac*

*Pedestrian-friendly, slightly profiled surface*

*Pitch covering*

*Quick and easy to install by hand*

*Flat surface- easy to roll over with cases*
