

eps Arena Stage

eps Arena Stage

High-Quality Mobile Platform Significantly Reducing Set-Up and Dismantling Time

Material:	Aluminum (Decks: optionally aluminum or wood)
Dimensions (L x W x H):	Per module / dolly: 1.950 x 0.975 x 1.40 m (6.4 x 3.2 x 4.6 ft) Operating height: 140–200 cm (4.6–6.6 ft)
Weight:	170 kg per module / dolly (deck not included)
Color:	Silver-black
Additional information:	Constructed according to internationally accredited safety and quality standards Load bearing capacity: Up to 50 kg per m ² (10.2 lbs per ft ²)
Transportation:	24 modules / dollies per 13.60 m max. 216 m ² (2,327 ft ²)

PRODUCT PROFILE

The mobile eps Arena Stage is based on rolling modules, allowing the rig and stage to be assembled and dismantled in parallel, which significantly shortens the overall construction time. Minimalist design and modular construction principle simplify installation, enabling the modules to be connected with exceptional ease. Thanks to the castors, the mobile stage, designed for flexible stage configurations, offers ideal conditions for arena shows. The height-adjustable modules adapt to uneven terrain and also function as dollies (transport cases), ensuring maximum efficiency.

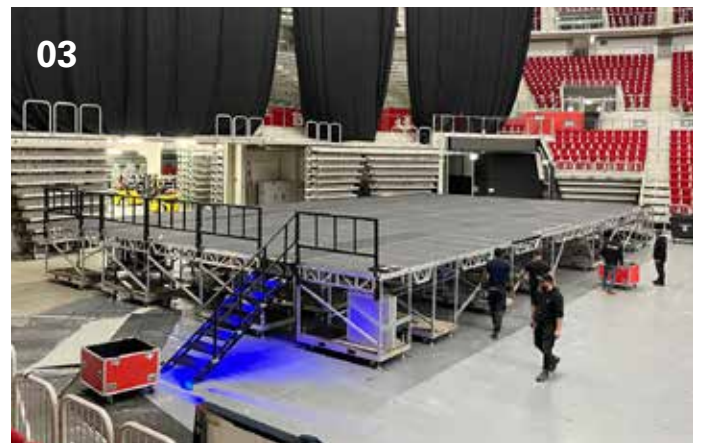

HIGHLIGHTS

- Maximum time and cost efficiency during assembly and dismantling
- High-quality, robust, and durable
- Modular design for flexible platform configurations

- Easy handling
- Optimized logistics: modules also serve as dollies
- Height-adjustable for uneven terrain thanks to adjustable module feet

OPTIONAL EXTRAS

- Handrails
- Adjustable stairs
- Cable protection bridges to protect cables laid on the ground, guests and staff
- Comprehensive services, e.g. project management, CAD planning, logistics, set-up and dismantling
- Custom-made products on request
