

Standing Grandstands

Standing Grandstands

Fast, space-saving solution for inner-city events

Dimensions (l x w x h):	4.30 x 2.00 m (169 x 79 in) Transport 4.30 x 1.20 x 0.8 m (169 x 47 x 31.5 in) The modules can be connected depending on the width of space available and the number of spectators anticipated 15 cm (6 in) on level ground, the slope of 15 cm / 40 cm (6 in / 16 in) In accordance with applicable German law
Weight:	Approx. 750 kg (1,653 lbs)
Color:	Silver
Assembly time:	approx. 10 min per module with 2 men
Transport:	18 modules incl. railings per truck

PRODUCT PROFILE

The Standing Grandstand 5 S is specifically designed for the use in cities. It is an approved system with a valid inspection certificate and complies with all applicable regulations. Assembly requires only five simple steps: unloading, positioning, connecting, unfolding, and installing the railings. Especially in public spaces, short setup and dismantling times are a major advantage. The five standing tiers allow the grandstand to be used even in tight spaces and on limited surfaces. This folding grandstand system is the ideal solution for sporting events or inner-city occasions such as cycling events, marathons, or parades. Its narrow structural depth allows set-up even in spatially limited areas, such as finishing lines or parking bays.

HIGHLIGHTS

- Certified to the highest international standards
- Modular, highly adaptable system
- Space-saving folding design with minimal depth for optimal use of available area
- Slim structural depth allows installation even in confined spaces

OPTIONAL EXTRAS

- Screening materials
- Comprehensive services, e.g. project management, CAD planning, logistics, assembly and dismantling

01 This innovative folding grandstand system offers a fast and space-saving solution for sporting and inner-city events | **02** Standing Grandstands are ideally suited for inner-city areas, as demonstrated here at ,Porta hoch 3' in Trier | **03** The step height at the starting level is 15 centimeters on flat ground | **04** Just five steps to set up the Grandstand: unload, position, connect, unfold, and install the railings
